Fort Made To Defeat Recognition By the American Government

Tokio, Sept. 25.—The allies were reported here today to be planning to ask that Japan either send troops to the Dardanelles to aid in a quick dash to Constantinople, or dispatch them to Russin to make it impossible for Germany to divert troops from the Slav operations toward the Balkans.

No official confirmation was obtainable, but the report attracted much able, but the report attracted much comment in view of the probable entrance o. Bulgaria into the European conflict.

At any rate, it is known that the allies will be refused if they make the requests. The government believes that the difficulties of transportation are insuperable, and, moreover, Japan is not willing to risk her prestige in such a venture.

Recently the allies were reported as would shave a better chance to claim great advantages in the liquidation following the war, but the najority is oposed to any move of this sort.

The more recent proposals have suggested an alliance either in the near cast or far east. Japan has been some what more amenable to suggestion of a far east program of aid, if it would be practicable, but lately this proposal seems to have been dropped will the Dardanelles or Russin program has been suggested as more pressing, and more likely to be the subject of a direct request for help in angmenting their munitions Japan declined to sell her reserve supplies but did take steps to extend her plant and output.
